Attributes

The screenshot displays the Oracle Data Integrator (ODI) interface. On the left, a 'Menu' points to the 'Designer' tab, which shows a tree view of projects and models. The main workspace shows a 'Workflow' diagram with a 'JOIN1' operator connecting 'SRC_CUSTOMERS' and 'SAMP_CL' data stores. On the right, a 'Components' panel lists various logical components like 'Aggregate', 'Dataset', 'Filter', 'Join', etc. At the bottom, a table titled 'SRC_CUSTOMERS - Properties' lists attributes with their data types and sizes.
